### Charging the ChargeBlock for smartphones

**Note:** We recommend fully charging the ChargeBlock for smartphones before first use.

Using the supplied USB cable, connect the small end into the USB connector of the ChargeBlock for smartphones and the other end to a computer or USB power supply.

There are 4 red LED lights that illuminate in succession while it is charging.

**Note:** All LEDs will flash simultaneously when charging is complete.

When charging, the ChargeBlock for smartphone's indicator lights will signal the battery capacity as follows:

- a. Battery capacity  $\geq 30\%$ ---LED "a" is lit.
- b. Battery capacity  $\geq 50\%$ ---LEDs "a" & "b" are lit.
- c. Battery capacity  $\geq 70\%$ ---LEDs "a", "b", &

3

"c" are lit.

d. Battery capacity  $\geq 90\%$ ---LEDs "a", "b", "c", & "d" are lit.

Please disconnect the Micro-USB or Mini-USB cable after ChargeBlock is fully charged.

### Using the ChargeBlock for smartphones to charge mobile phones and other devices

The ChargeBlock for smartphones can charge a mobile phone via its 'flip out' Micro-USB or Mini-USB connectors.

Pull up rubber tab on back of device using fingernail or the tip of a pencil. Gently lift and pull out the desired USB connector. Insert the connector securely into your phone or USB device.

While charging, the ChargeBlock for smartphone's indicator lights will signal the amount of remaining battery power as follows\* :

- a. Battery capacity  $\geq 90\%$ : "a", "b", "c" and "d" LEDs are lit.
- b. Battery capacity between 70% - 90%: "a", "b" and "c" LEDs are lit.
- c. Battery capacity between 50% - 70%: "a" and "b" LEDs are lit.
- d. Battery capacity between 30% - 0%: "a" LED is lit.

**Note:** The ChargeBlock for smartphones can charge your phone while it is charging, but it cannot charge two phones at the same time.

For optimal performance, fully charge the ChargeBlock for smartphones once every two months.

### Safety Precautions

1. Do not place the ChargeBlock for smartphones in direct sunlight.
2. Do not expose to high temperatures or liquids of any kind.
3. Never disassemble the ChargeBlock for smartphones.
4. Keep ChargeBlock for smartphones out of childrens' reach.
5. If liquid from ChargeBlock for smartphones spills out, do not let it contact skin, clothing, or eyes. Flush affected areas immediately with clean water. In case of contact with eyes, hold open and flush with liberal amounts of water. If irritation develops or persists, contact the poison control center or a physician.

### Disposal

Dispose of the ChargeBlock for smartphones properly. The ChargeBlock for smartphones contains lithium-ion battery cells and should not be discarded with ordinary household waste. Contact your local recycling center for proper disposal.
